

# Deployable Micro-DC

Purpose-built and lightweight, mobile communications infrastructure.

- Suitable for Defence communications including on-base or deployed in-field in harsh operating environmental conditions.
- Modular frame easily accommodates split, dual or bridged backplanes.
- Flexible connector and network integration panels.
- Passive & active cooling with heat dissipation & anti-condensation.
- IEC & MIL-STD compliant with EMC vents.
- Telescopic shelf (up to 30kg load rating) with cable arm, 19" rails, PDU and fan unit.
- Skids allow for easier mobility.
- Heavy duty lifting lugs.
- Manufactured from 2mm aluminium.
- Chemically converted.
- Powder-coated finish.

 Made in AUSTRALIA
